

USAMA SAJJAD

IT Support | Data Analysis | Web Development

Frankfurt am Main, Germany | +49 015750742731 | usamasajjad615@gmail.com | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

IT professional with over 4 years of professional experience and a technical background in three areas: **IT Support**, **Data Analysis** and **Web Development**. **IT Support:** end-user and desktop support, Active Directory, Microsoft Entra ID, Microsoft 365, Intune, SCCM and ServiceNow, resolving incidents within SLA targets for organizations of 250 to 350+ users. **Data Analysis:** SQL, Python (Pandas), Excel, Power BI (Power Query, DAX), ETL, data warehousing, reporting and dashboards. **Web Development:** HTML, CSS, JavaScript, Bootstrap, Python, Django, FastAPI and REST APIs. Microsoft Certified: Azure Fundamentals (DP-900), currently pursuing a Master's degree in Global Software Development. Proficient in English and German (B1). Open to relocation within Germany.

CORE SKILLS

IT Support & Service Desk: Level 1/2 Support, Help Desk & Service Desk, Onsite & Remote Support, Incident & Request Management, Ticket Management, SLA Compliance, Response & Resolution Time Tracking, Escalation Handling, First-Call Resolution, Hardware & Software Troubleshooting, End-User Support

Systems & Administration: Active Directory, Microsoft Entra ID, Microsoft 365 / Office 365, Intune, SCCM, Exchange/Outlook, User Onboarding/Offboarding, Account & Access Management, Windows/Linux Administration, Change Management, Root Cause Analysis

Hardware & Data Center: Desktop/Laptop/Printer Deployment & Migration (IMAC), Hardware Installation & Maintenance, Server & Endpoint Support, System Uptime, Preventive Maintenance, Inventory & Asset Lifecycle Management

Networking & Security: LAN/WAN, TCP/IP, DHCP, DNS, VPN, Firewall, Endpoint Security, Patch Management

Data Analysis & Reporting: Data Analysis, Microsoft Excel, SQL, Python (Pandas, NumPy), Power BI (Desktop & Service), Power Query, DAX, Data Modeling, Data Cleaning & Validation, Data Reporting, Data Visualization, Reports & Dashboards, MicroStrategy, Data Organization & Documentation

Data Engineering & Cloud: ETL, Data Pipelines, IBM DataStage, Data Warehousing, Data Extraction & Transformation, Web Scraping, Relational & Non-Relational Databases, Batch & Streaming Data, Microsoft Azure Data Fundamentals (DP-900)

Web Development: HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design, Python, Java, Django, Flask, FastAPI, REST APIs, Backend Development, SQL/MySQL, Git

Documentation & Coordination: Technical Documentation, SOPs & Knowledge Base Articles, Version Control, Vendor & Supplier Coordination, Procurement Support, Records & Compliance Management

Ticketing & Tools: ServiceNow, ServiceDesk Plus, Spiceworks, Desktop Central, PDQ Deploy, Microsoft Teams, Zoom, Git

Soft Skills: Clear Communication, Customer Focus & Satisfaction, Analytical Thinking, Problem-Solving, Time Management, Adaptability, Cross-Functional Teamwork

WORK EXPERIENCE

IT Technical Support Engineer | ConnectB2B | 02/2025 – 05/2026

- Managed the migration and deployment (IMAC) of computers, laptops, printers, and scanners across departments, supporting an organization of 350+ users.
- Provided end-user support via the Service Desk/User Help Desk for hardware and software issues.
- Addressed user tickets related to system performance, connectivity, and application errors, working within defined SLA response and resolution time targets.
- Conducted remote desktop troubleshooting and ensured accurate documentation of support tickets.
- Supported daily technical operations related to desktops, data systems, and server management.
- Performed system updates and configuration changes in compliance with organizational policies.
- Coordinated with the procurement and supplies department for IT equipment ordering.
- Connected computers across the organization to streamline communication and data access.
- Administered and managed 350+ user accounts in Active Directory and Office 365.

Desktop Support Engineer | Deepscale Technologies | 07/2023 – 01/2025

- Initiated incident tickets for a 250-user organization, followed escalation protocol, and worked issues through to resolution.
- Conducted initial support, classification, and prioritization activities in line with SLA response times.

- Configured and supported email accounts using Microsoft Exchange/Outlook, including mailbox permissions and distribution lists.
- Monitored and maintained endpoint security, including antivirus updates and system compliance checks.
- Documented IT procedures and troubleshooting guides for common issues, improving team efficiency and knowledge sharing.
- Monitored the status and progress toward resolution of all open incidents, keeping the IT Director informed as appropriate.
- Created, managed, and maintained 250+ user accounts, groups, and permissions in Active Directory, ensuring proper access control.
- Performed software installation, configuration, and patch management on Windows desktops and laptops.
- Resolved Wi-Fi, VPN, and printer connectivity issues across the network, minimizing downtime for end users.

Junior Consultant | Gahhak | 12/2020 – 02/2022

- Extracted data from various data sources and transformed it according to project needs using Python (Pandas), including data cleaning and validation.
- Loaded real-time data into the data warehouse using IBM DataStage ETL pipelines, applying SQL and Pandas to transform the data.
- Fetched data from different source systems and performed the necessary transformations before storing it in the data warehouse.
- Used SQL to query, filter, and validate data for analysis and reporting.
- Developed reports and dashboards using MicroStrategy and SQL to filter and present data for business users.
- Acted as the link between technical systems and business teams, translating data and IT topics into clear, practical guidance for non-technical colleagues and management.
- Created and maintained documentation (data flows, procedures, knowledge-base articles) using consistent structure, file naming, and version control.

EDUCATION

Master's Degree in Global Software Development — Hochschule Fulda, Germany (2022 – Present)

Bachelor's Degree in Software Engineering — GIFT University, Gujranwala, Pakistan (2016 – 2020)

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (DP-900) — Microsoft, 11/2024

Zertifikat Deutsch B1 — Telc Sprachprüfungen, 07/2025
